### Specific Migration / Heavy Metals

Producer(s) of the above product(s) mentioned any substances for which the specific migration limit is established.

Based on the experimental data and/or theoretical data the dual use additives are conform to chapter 11 of the Regulation (EU) N. 10/2011 subparagraph 3, letter a and b and the DM March 21, 1973.

The cumulative amount of heavy metals lead (Pb), mercury (Hg), cadmium (Cd), and Chromium VI (Cr) in the materials supplied does not exceed the limit of 100 ppm

## Intended use

Based on the tests the materials or articles intended to come into contact with food are intended for use under the following conditions:

Types of food: dry foodstuffs and low extracting capacity foods at room temperature.

Store at dry surroundings with room temperature.

Avoid direct sunlight and proximity of heat sources.

This confirmation does not apply to the unintended use of the product(s) which can result in a change of composition or organoleptic properties of the product(s). The possible specific interactions between the food to be packed and the product(s) is for the user to be examined.

Confirmation is based on suppliers declarations, to the best of our knowledge and migration analyses.

This declaration is valid as long as no changes in the composition of the above product(s) and / or the relevant laws have taken place, in which case it will be renewed.

We recommend our customers to verify the regulatory status periodically.

I declare that the information submitted is correct.
