RAW materials:

The above material has been manufactured with degreased and pre-lubricated aluminium alloy (rolls excluded).

Chemical composition of aluminium laminate and its alloys is in compliance with technical standard UNI EN 602:2007 and aluminium has been manufactured in compliance with guideline UNI EN 16773:2016.

In the production of plain aluminium a lubricating oil has been used as processing aid. The oil complies with the requirements of M.D. 76/2007 and guideline UNI EN 16773:2016.

The lubricant does not contain G.M.O. substances and potentially allergenic substances.

Allergens:

In the supplied product, substances called allergens, as per Annex II of Regulation 1169/2011/EU and subsequent updates and modifications have not been intentionally added.

Dual additives:

We declare that in the above described material there are no substances regulated by Regulation 1333/08/EC and/or Regulation 1334/08/EC (substances called “dual use” additives).

Storage conditions

Dry conditions, away from direct sunlight, avoid mechanical shocks, keep in original closed packaging free from dust and other contaminations.

Traceability

Traceability of the product is ensured according to Regulation (EC) No 1935/2004.

Our statements are based on the conformity documents made available by our suppliers, migration tests carried out by us or by a third party. It is the customers own responsibility to test the suitability.

It is the sole responsibility of the user to check and test whether the product is suitable for its intended use, the shelf life of the food, the compatibility between the food and the product.

Ace Packaging takes no liability whatsoever to any third party.

It is the sole responsibility of the user to test whether the product does not alter the organoleptic properties and/or composition of the food.
