

DECLARATION OF COMPLIANCE FOR FOOD CONTACT MATERIALS

Declaration of compliance n° 18_2022

Name of the manufacturer	HOVICON INTERNATIONAL B.V. VIJFHUIZERDIJK 21 2141 BA VIJFHUIZEN THE NETHERLANDS
Product covered by this declaration	Dispenser CON-BK Your art. CD0501 + CD0552D

We hereby declare that the Dispenser CON-BK is made by the following components:

Plastic Components:	Matrix
1. Dispenser head	PP
4. Plastic nut	PE
5. Piston rod with o-ring	PP & Silicone
6. Ball valve with ball & o-ring	PP & Stainless Steel & Viton
8. Piston house	PP
9. Valve casing with ball & o-ring	PP & Stainless Steel & Viton
10. White diptube	PE
Stainless Steel Components:	
2. Outlet pipe	Stainless Steel Acc. To European Regulations
5. Plunger	Stainless Steel Acc. To European Regulations
7. Spring	Stainless Steel Acc. To European Regulations
Lid	Stainless Steel Acc. To European Regulations

Based on our suppliers information, the materials which have been used in the above mentioned specification are in compliance with the following guidelines and recommendations in their current version:

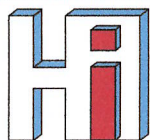

Plastic components are in compliance with the following European Union (EU) legislation:

- Regulation (EC) No 1935/2004 (as amended),
- Regulation (EC) No 2023/2006 (as amended),
- Regulation (EU) No 10/2011 (as amended),
- Regulation (EU) No 2020/1245 (as amended),
- FDA 21 CFR 177.2600

and with the following Italian legislation:

- Decreto Ministeriale n°21/03/1973 (as amended),
- D.P.R. n°777/1982 (as amended)

The overall migration of the articles is -within intended use- under the legal limit values in accordance with the regulation EU 10/2011. The used raw materials and additives comply with the consumer article regulation (and/or correspondences) into the European plastic regulation EU 10/2011 as well as the transition periods and changes of this guideline valid at the time of the distribution of this declaration.

Specifications to the intended use or restrictions

All types of food, Acidic and fatty foods which are intended for long term contact with the product at room temperature or below

SML Components

These products contain one or more components with limited migration specifications. These substances are listed below;

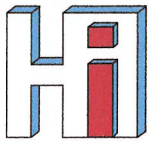

FCM substance No.	CAS. No.	Name	Restrictions and/or Specifications
779	182121-12-6	9,9-bis (methoxymethyl)-9H-fluorene	SML (T) = 0.05mg /Kg

According to the declaration of compliance of food contact legislations received from our raw material supplier it contains the following additives which are also authorised as food additives by Regulation (EC) No 1333/2008 or as flavourings by Regulation (EC) No 1334/2008:

Dual-use Additive	
E number	Substance name
471	Glycerol monostearate
211	Sodium benzoate

This product contains traces of a substance which is regulated with a specific migration limit in EU (Commission Regulation 10/2011; Annex II). Migration tests showed a migration level significantly below the SML, thus exceeding this SML under foreseeable conditions of use involving food contact is not expected.

SML = 1 mg/kg (expressed as Aluminium)

Due to the compliance to these regulations, the materials mentioned above for use in the field of application of each provision are appropriate, unless unintended use occurs.

On request we can send you the documentation of the suppliers of the raw materials.

This confirmation does not release the user, if necessary, to apply for an authorization for an application with an approved testing institute.
