Declaration of Compliance

for materials and articles intended to come in contact with food

We hereby confirm that the products

- Maxtra Pro Pure Performance
- Maxtra Pro Limescale Expert
- Maxtra Pro Hard Water Expert

made of the following materials:

Product parts in contact with water	Material	Highest food contact surface area to volume ratio [dm ² /ml]
barrel	PP	1/60
lid	PP	1/60
Top mesh	PET	1/167
Bottom mesh	PET	0.5/100
Activated carbon	Activated carbon	-
Ion exchange resin	Ion exchange resin	-

EU Food Contact Regulations

The products listed above comply with the legal requirements set out in **Regulation (EC) No. 1935/2004** (including Articles 3, 11(5), 15 and 17), as last amended by Regulation (EU) 2019/1381, and **Regulation (EU) No. 10/2011** on plastic materials and articles intended to come into contact with food, as amended by Regulation (EU) 2024/3190. When used as specified, overall migration as well as specific migration do not exceed the applicable legal limits. Testing was performed in accordance with Regulation (EU) No. 10/2011 (Annex V).

A functional barrier was not used.

If the materials and raw materials used contain substances with specific migration limit (SML) restrictions, all test results are within the applicable legal threshold values. To enable downstream business operators to ensure compliance with these restrictions, the identity of the relevant component(s) may be disclosed to third parties for testing purposes upon special request and subject to a non-disclosure agreement (NDA).

The products listed in this declaration are tested as repeated-use articles and are suitable for contact with water for human consumption, considering a contact time of 24 h at ambient temperature.

Additionally, the materials comply with the requirements of:

- Council of Europe Resolution ResAP (2004)3 for ion exchange and adsorbent resins
- DIN EN 12915-1:2009-07 for granular activated carbon

Compliance with Regulation (EU) 2024/3190

During the manufacture of the above-mentioned product, no Bisphenol A or other bisphenols are intentionally used or added. The products comply with **Regulation (EU) 2024/3190**.

This statement is based on our current knowledge and information provided by raw material suppliers.

Compliance with Regulation (EU) 2023/2006

The product is produced in accordance with **Regulation (EC) 2023/2006** on good manufacturing practice (GMP) for materials and articles intended to come into contact with food.

The strict observance of all safety, operation and maintenance instructions in the product documentation is essential.
